About Me

As a dedicated developer. I thrive in collaborative environments, particularly in outsourced and B2B models, where understanding client goals and delivering on expectations is key. I am committed to continuous learning, innovation, and delivering high-quality code that supports long-term success—for both our partners and their customers.

Skills

- Web Development
- Team Management
- PHP, Laravel
- Custom Admin Panels & Dashboards
- E-commerce Development
- CMS, ERP Systems

Education

- **Development Certifications**
Ws Cube Tech 2022 - 23
 - Full stack web developemnt (PHP)
 - Python
- **Chroma Campus Noida** 2024 - 25
 - MERN Stack
- **Bachelor of Compter Applications**
KMGC Narwana 2024 - present
Undergraduate program focused on the fundamentals of computer science, software development, and modern IT practices. This degree provided me with a strong foundation in programming languages, database management, networking, operating systems, and web development.
- **Artificial Intelegence and machine learning**
Tihan IIT hyderabad 2025 - present
A focused specialization in the field of AI and ML, covering the core concepts of intelligent systems, data-driven decision-making, and automation. This area of study equipped me with knowledge in algorithms, supervised and unsupervised learning, neural networks, natural language processing, and real-world model deployment.

Experience

- **Resource Planner & Developer**
Naksh Enterprise 2024 - 25
Some highlights
 - Developed an ERP for Naksh Enterprises.
 - Built and deployed 10+ E-Commerce stores with custom features.
 - Added tailored business logics to client websites.
 - Designed a POS-based ERP system for BharviFood.
 - Led the development of the School Darpan SaaS.
 - Created an educational ERP for PSP College.
- **Freelancer** 2024 - present
As a freelance web developer, I collaborate with clients across industries to design, develop, and deliver custom web solutions tailored to their unique business needs. From responsive websites to full-scale web applications, I handle end-to-end development including UI/UX design, backend integration, and performance optimization.
I specialize in building scalable, secure, and user-friendly platforms using modern frameworks and technologies. Whether it's developing an e-commerce site, a business portfolio, a CRM/ERP system, or custom APIs, my focus remains on solving real-world problems and enhancing digital presence. I prioritize clean code, maintainability, and business alignment in every project.
